WHEN the revision of the Shanghai Land "may not affect immediately the value of also." The local papers are very angry with ing the mails overland,

Company from their premises in the conces. necessary to protect the interests of the The hest Mid Aperient for Delicate Constitut unsatisfactory condition of land registra. of the Chinese Authorities in the Settle-tions, Ladies, Children, and Infants, and for regular tion at Shanghai. The China Merchants' ment it is time that Shanghai considered its S. N. Co. rented from the late firm of position and took another step forward. Russell & Co. certain premises which Hongkong Trading Co. LD. it is claimed belong to the Howgua family but which Russell & Co. man- with the farcical comedy "Dr. Bill." aged in their own name. On the failure of Russell & Co. the China Merchants' Co. who figure amongst the creditors of the estate, discontinued the payment of rent, which they apparently intended to retain as at 9 a.m. and returning at 10 p.m. a set-off against their claim. Thereupon Mr. H. S. WILKINSON, Her Majesty's Crown Advocate at Shanghai, acting on behalf of the trustees of Russell & Co,'s estate, caused the premises to be seized, early on the morning of the 18th September. When Mr. CHUN FAI-TING, the manager, arrived at bis office in the morning he found the doors closed. Thereupon he applied to the Police, but getting no satisfaction from them, he collected a force of the Company's coolies and led them to the office. In view of this force the eight foreigners in possession retired. and the Company's representatives resumed possession. While these proceedings were going on it was expected that some disturbance would occur, to prevent which strong force of police was drafted to the spot cold Medals 5 Silver Medals a party of blue jackets from H:M.S. Careline was landed, and the Taotai sent a party of Chinese soldiers. Fortunately, however all passed off quietly. The net result is that in the so-called British concession a Chinese company forcibly ejected a party Wednesday next.

The N. C. Daily News says the comedy has be on a consolidated scale and not on the in it all the elements of tragedy. The Mercury says the result might well have been to ITALIAN AND AMERICAN MARBLE light a conflagration which might bave spread from Shanghai to Chungking, even northwards and southwards. At a time like the present, anything calculated to provoke hostile encounters between ness and foreigners is much to be precated, and the fact that Mr. H. S. [1874] WILKINSON, the Crown Advocate. was the Siamese Government profit by the example of and the determination was then taken to endow the has been so indefferent with regard to the the leading spirit in the affair has been temporaries. That gentleman was of course acting as a lawyer in private practice, not in his official oapsoity, but sometimes it is difficult entirely to separate a man from his office. It appears also that he took action without baying secured any formal outlying provinces. warrant. Where, indeed, could be have obtained a warrant? As the Mercury succinctly puts it, the bankrupt firm on account whose estate rent was claimed was American. the lessess who declined to pay their rent in the alleged proper quarter, as well as the creditor who sought to recover the money were Chinese subjects; beyond the accidental circumstance that the legal adviser of the creditor is British and that the premises concerned are situated in the British Concession, there were no British interests involved. Under these complicated circumstances, and we are now executing all orders for by what law is the dispute to be settled? Both our Shanghai contemporaries seem to acquiesce in the idea that it is a purely Chi nese affair, and that so long as it can quite sufficient to state the numbers of the kinds settled without dragging foreigners into any disturbance no notice need be taken of N.B. - Ili Seeds are tested on arrival before Their attention has been more directed Mr. Wilkinson's indiscreet action than to the consideration of the important question of the tenure and registration of land in

which was in dispute.

In the report of the Committee appointed to revise the Land Regula tions under the resolution passed at the six bundred men, of whom four hundred carry out of the books of Asiatic insolvents. They ing to abate the unisance. special meeting of ratepayers held on the Winchester rides obtained from Hongkong. 12th November, 1879, one paragraph read as follows:--" Nothing has been inserted in the but with negative results, as he was unable to or residence. W. J. SLUNDERS, Acting Secretary. THE SELAMA TIN MINING COM-PANY, LIMITED.

The following is the report for presentation to the shareholders at the second ordinary meeting to be held at the office of the Company Queen's Road, Victoria, Hongkong, on Saturday, the 10th October :-

The directors have the pleasure to submit their report on the working of the company together with a statement of accounts for the twelve months ending 80th June last showing a further sum of \$30,609,45 at dehit of working account in connection with the property at Selama, and \$18,378.95 on the properties at Blanda Mabok and Tekka (Kinta).

The buildings at Selama are offered for sale to the Perak Government for \$3,55", and the difference of \$1,654.51 has been written off to depreciation; this amount together with the cost of roads and other buildings, considered as an asset in last year's account, are now included in the amount at debit of add that in this matter of tonnage the Hongworking account.

The Selams account shows a total debit of \$71,493.92 and Blanda Mabok and Tekka \$25,001.17. A faw'days prior to our last annual meeting enring was tapped in the 147 ft. level, which drowned the pump and necessitated the purchase and fixing of new pumping machinery constructed by the Hong-kong and Whampos Dock Company. In the mean-time levels were started at 35 and 60 feet; when the shaft was oleared of water in January the 147-ft. level was continued for 76 feet but nothing in the shape of a lode was found, and as Mr. Laws on open-ing out and driving levels from Hooper's old shaft. where the original specimens of tin ore were found, could discover no trace of tin, and his reports being against the probability of a lode existing, it was decided to abandon operations at Selama.

Mr. Hooper's report handed over by the Perak Tin Mining and Smelting Company stating that "it was mere waste of time continuing the sinking of his old shaft, the richness of the lode at that point being the East. The colony is also the headquar-"proved beyond all doubt," having been generally tors of the China squadron and thus, alike from accepted, the development of the property was left the point of view of peace and of war, constitutes in his (in. Hooper's) hands, with the present lament too important a link in the chain of British Early in November, 1890, Mr. W. Warren, by per-

its entire depth in good solid rock. far mined being stanniferous, or tin bearing, especi-

"acteristics of a rich copper lode than a tin one."

Blanda Mabok he regarded as a little more uncertain, very little work however had then been done. On receipt of Mr. Warren's report your directors were compelled to believe that Mr. Hooper, under whose advice the new shaft had been started, was \$18,000,000 of paid-up capital. Of shipping devoid of the necessary technical knowledge required, cleared and entered, the tournage rose in the same to direct or originate and carry on the proper work requisite for the successful opening up of a lode; they consequently wired home for a thoroughly efficient port this is the only indication which can be obtainengineer to develop the properties, and have seemed ed of the volume of foreign trade. The trade with
the services of Mr. George Laws, who arrived at China, which could be estimated from the Chi-

Penang on the 4th of April.

Your directors are glad to say that Mr. Laws has a very high opinion of Tekka and Blands Mabok and The prospecting permit over 300 acres at Klian Bahra has been allowed to lapse. No machinery has been purchased with the excep-

- DIRECTORS. 1890 .- The net Premium collected for the year, to draw, but the same has been placed to their credit

port gives that gentleman's views of the prospects

After visiting the mines I was at once impressed After visiting the mines I was at once impressed with the magnitude of the task which the Company had undertaken, viz., practically to prove the existence of lodes in the State of Perak. There is absolutely nothing to prove that a lot loss or can exist in any of the places worked. I Mirlaus indications and geological formations may be favourable, but for anch metals as may be likely to be found, it means a very large expenditure of money in exploratory work before any degree of certainty can be arrived at.

Of the three fields explored by the Company, one, Salama, has proved a disastrous failure. It is easy Selama, has proved a disastrous failure. It is easy to visit Selama now, and to say that no one would imagine a lode to exist there, but before work was commenced surface indications, as favourable as Tekka, existed, and competent men were certain of he existence of a lode.

At Tekks, or the Kints Valley field, several outcrops of the most promising description have been discovered and it was immarised from their positions that a continuous lode existed running N. and S. Our operations so far prove Tekka lode to run N.E. and S.W. so that all the outcrops discovered may be separate lodes. To prove any one spot is to make all other places of an immediate and decided value and therefore pratically the whole field is waiting for the result of this Company's work. An adjacent blook, Mahlembu, has stopped working though there is supposed to be a large deposit of rich tin and copper ore, but if Tekka lode makes and improves. in depth, the owners of any outcrop of aufficient promise will be encouraged to proceed with work. At Blands Mabok we are pursuing the same pioneoring work on probably a galena lode. To work silver lead requires a very large capital, the machinery and plant is expensive, so that a large and rich mine 4,561.76
6,346.44
contain such losies while Perakis an unknown land.
I was therefore impressed with the thought that
unless the reward was sufficient such prospecting
work was not justifiable, and that the creat of ground
given was atterly inadequate for the great risk the
Company is taking, and I do not think that the Company was over justified in commencing work at Tekka or Blauda Mabok, without a more definite and

consequently Mr. Aylesbury and I had interviews with F. A. Swettenham, Esq., C.M.G., the British Resident at Thiping, and I haid before him the shore views, at the same time I pointed out that the Com-pany was already, through the failure of Selams, saddled with a large amount of clost capital and the only way of recouping such ontlay was by acquiring sufficient ground to sell to other companies. Mr. Swottenham met as in a very nordial manner he was extremely complimentary to the way in which the Company was trying to carry on work, and frankly recognized it as the pioneer of lode mining in the state and he asked for our demand. Those were laid before him and discussed, and the following conditions were agreed to by Mr. Swettenham and sent to H. E. the Governor of Straits Settlements. (Here follow the conditions, which give the company very large prospecting powers.)

THE RATTB AUSTRALIAN SYNDICATE

The following is the half-yearly report of the Ranb Syndicate:-

The directors beg to submit herewith the fourth halance-sheet of the Company's operations, embracing a period of six months, to 31st July, and including The quantity of atone raised and treated has been 1,850 tone, yielding 925 onness of gold. Crushing finished on the 11th June. The machinery was then overhauled and the mills started again on lith July, but shortly after, had to cease working owing to want of water. The manager cabled on 18th instant that there were 400 tons of quartz, carrying good gold, at 164,862.14 gmas, and it is satisfactory to note that the western 413,905.02 lode, from which most of the crushing stuff is obtain-272,498.88 ed, appears to get richer at depth. The manager has been instructed to report generally on the property, and his letter should arrive in time for the general

'A considerable addition to the erashing plant is contemplated, specifications being in course of preparation. Winding machinery and true vanuers have already been forwarded. There are at present 16 Europeans and 159 coolies employed at the mine.

Instructions have been given to close the London Office referred to in last report, couns I having adwised that the articles of association do not permit its

ROBTET PRILE, Chairman Brisbane, 20th August, 1891

THE "TIMES" ON HONGKONG. Below we reproduce a letter addressed to the

Times by Sir William Des Voeux and the Times comments thereon :-To the Editor of the "Times." Sir, -I should be much obliged if, in justice. to the colony of Hongkong, you would correct an error in the article entitled "The Common-

wealth of Australia" which appears in your is-It is there stated as follows: "Within the Empire Melbourne is exceeded shoolute tonnage only by London, Liverpool Cardiff, and Newcastle The writer is evidently unaware that the port i Victoria, Hongkong, surpasses, in respect of tonnage, all other ports in the world except those

of London and Liverpool (and possibly that of New York, of which I have never seen the Though I have not the actual figures by me here. I am able to say that the return which resched me just before I left the colony showed the aggregate capsoity of vessels entered and cleared at the port of Victoria, Hongkong, in 189), to considerably exceed 13 millions of tons, the Hongkong port thus surpassing in this respect, not merely the port of Melbourne but all the ports, taken together, of the Australian colonies of Viotoria and New South Wales. In my report of 1889 on the condition and prospects of Hongkong, I gave the tonusge for 1888 of vessels entering the port of Victoria as 6.400.410, and as there figures are, I observe. quoted in "Whitaker's Almanack," it may possi bly be useful to some of your readers to explain that the number requires to be about doubled for "vessels entered and cleared," and I may

kong figures for 1890 considerably surpass those of all former years. - I am, Sir, your obedient WILLIAM DES VEUX, late Governor of Foot's Cray Place, Foot's Cray, Kent, Aug. 28

The Times of the 31st August writes:-Amongst the 42 Governments which constilute Her Majesty's colonial possessions, thereare some which habitually absorb so much aftention as almost entirely to overshadow the less dramatic history of others. Hongkong is not, however, one of those which can be forgotten. With a harbour ten miles square, in which, as Sir William Des Voux reminded us on Saturday, This result was totally unexpected by all; no doubts I the amount of tounage annually registered ranks or feare had been entertained as to the existence of a mext on the world's list to the ports of London Liverpool and, perhaps. New York, the town of Victoria in Hongkong occupies the position of one of the principal commercial centres of too important a link in the chain of British communications to be for any long period of time lost sight of. Its history has been for mission of the Hon. C. P. Chater, examined and of time lost sight of. Its history has been for reported on Selama and other workings in Perak. His years past one of constantly increasing prosop nion was quite adve so to Selama, but very perity, and the last address on the subject of favourable to Takke, he stating that the financial condition which Bir William Des This country is the most promising in every way and especially for lode mining which I have seen anywhere in the Malay Peninsula, the shuft has been sunk some 20 feet and shows results which I points to a prospect of equal promise for the regards eminently satisfactory; it is sunk almost future. Taking in turn the subjects of local enterprises, foreign and Chinese trade, and bank "There is no manner of doubt about the rock so deposits, the address shows that, at the end of ally nearer the surface, but though it may turn out \ 1887, there were 26 public companies whose shares to be richer in the than it is now, my strong impressive dealt in in the Hongkong markets, have sion is that it will become or show more the charting an aggregate paid up capital of \$26,230,000 and the value of which was \$16,870,125. At the beginning of 1891 there were 54 public companies, with a paid-up capital of \$44,074,950 and a market value of \$77,200,850, which gives an increase, in 3½ years, of 23 companies and nearly period from 12,500,000 to 13,500,000. In a free usse Customs reports, showed an increase in

1890 of about £1,750,000 on the preceding year. regards the prospects as extremely promising.

Lest month one of your directors, Mr. J. Orange, clarming diminution in the amount of bank devisited Perak on behalf of the Board, and his report posits had taken place. The returns of the is annexed; a valuable concession has been obtained.

British banks in the colony showed, on the whole. Pessimistic rumours had been issued that an British banks in the colony showed, on the whole. for the company from the Government, and it is gratifying to see that there is every disposition on their part to aid this company, which so far has met with such misfortune in its operations. ing with accuracy, appeared to indicate a nearly corresponding decrease, while, at the same time, money was reported by the Registrar-General to be very plentiful with the Chinese, amongst whom it was obtaining unusua-The board of directors by the articles of association ally low rates of interest. The population of tion are entitled to remuneration, this amount under the colony has risen since the last census, from present circumstances they have not thought proper 160,000 to 220,000. These evidences of prosperity are specially interesting in relation to the quesCLOSING QUOTATIONS.

ALLAHABAD, 8th September, The Home authorities have agreed that in the working of heavy guns at Adea and the tures. fortified ports of India, European kunners should be employed, lascars being trained for manual work under their direction. This will necessarily involve an increase in the number of Garrison Artillerymen in India, and some 800 will be sent out. The strongth of each Battery at the various ports will be increased by 50 or 60 men, so that the unit will be larger than at present obtains Special officers will also be appointed, who will be skilled in range finding, and fully acquainted with shore defences.

BOIENTIFIC MISCELLANY.

A German engineer. Herr Stechner, has de montd an apparatus for automatically tracing the profile of a river bottom from a boat travelling from 3 to 6 miles an hour. It consists of a outvel arm, hinged at the upper end, and so long that the lower curved portion trails on the bot-tom of the stream. By means of a suitable re-cording mechanism, the variation in the inclination of the arm registers the depth on a revolv ing drain as the boat progressee. Soundings on the Elbe have been made with this instrument over a distance of 207 miles in 10 days.

NOW ON SALE IMPERIAL QUARTO. INGLISH AND CHINESE DICTIONARY. WITH THE PUSTI AND MANDARIN

PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical services this Work stants unrivalled. All the new THE "DAILY PRESS" OFFICE, words which the Chinese have of late years been All proofs are read and all work compelled to coin to express the numerous obsuperintended by Europeans. Always jects in machinery, photography, telegraphy, equal and generally superior to that of foreign relations has imposed upon them, are here given in extenso. Each and every word is for students of a most instructive nature. Both Containing the names of all the Articles of the Court and Punti pronunciations are given Trade, objects of Natural History, Furniture, the accounts being carefully marked on the best displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously with the best materials, and under attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications. To illustrate the vast scope of the work the following facts are submitted for consideration :--

Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English ters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary bitherio pub-

For practical purposes the arrangement of the work is so complete, that a reference to its understand nothing but Chinese. In this respect themselves it explains subjects fully with which very few indeed of them are perfectly acquainted To parties resident in England and interested in China it cannot but be invaluable occasion-

It comprises upwards of two thousand large quarto pages. 4 Vols. IMPERIAL QUARTO, Price, \$20. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies. LONDON:

TRUBBER & Co., 60, PATERNOSTER ROW. HONGKONG: DAILY PRESS" OFFICE, WYNDHAM S

SHE PUT IT IN THE CUPBOARD.

What a weary thing it is to be ill, especially for a long time. You are tired of advice, tir d of trying this, that, and the other, tired of fancying you are a trifls better tired of taking precautions against getting worse. You are tired of pain, and half believe the tooper you are under the ground the bitter for you, and the more agreeable to your friends. Here's a little story. A woman told it lately She says:

"I, Mary Jones, of S. Galton Street, Great Howard Street, Liverpool, declare as follows: " I have suffered all my life from weakness of the stomach and aluggish liver. I was always tired and languid, and often troubled with bilious headache. My appetite was poor. I never had desire for food, and what I did eat did not digest properly. I had always a had taste in my month, and a slimy scam would cover my wouth and teeth, and so bid was this that I was obliged to riuse it away before enting. When I was in my teens I was very weakly and would faint after sitting down to my meals. I had trembling at the heart, with a heavy weight at the chest, pain at my side, and a strange giddy feeling would come over me. When out walk-If I had her for five minutes to myself, I'd ing in the street I used to have to stand and rest for fear of fa'hing. I was also so weak that down and rest. At times I had a bad o ugh and pain in my lungs: I saw doctor after doctor. and was under medical treatment for more than twelve years. One doctor said I was suffering from an enlargement of the liver another said I had heart disease, a third said my lungs were congested and that I could not recover. Thinking I was now in a consumption, I went to a consumptive hospital and was under treatment there for some time. The doctors, after sounding my chest, told me I was in a decline, and that my left lung was congested. They gave

me cod-liver oil and other medicines, but I got "In July, 1890, after a bad fainting I became by three doctors for a minth. The first deator triod and found useless. I could take liquid food only and was fast sinking, my case being considered hopeless by both the physician and the nurse. At this time it was that my husband heard through Mr. Parry, the chemist in Great Howard Street, of a medicine called Mother Seigol's Curative Syrup, and we were presented with a book which described a case just like mine having been cured by it. My husband procured a bottle of this medicine and I began taking it. After a few doses I passed a motion as black as cost and experienced great relief, and shortly after felt as if I wanted something to eat. When the doctor called the next day he could son a marked change in me and said. Mrs Jones. we have given you the right medicine at last." He thought it was his last bottle that has worked ed the change, whereas the nares had put the medicine in the emploard untogoned. I went on with Mother Seigel's Syrap, and to the delight. of my husband, father, and nurse I never looked behind me. All the pain at the heart and chest gradually left me, and in a fortuight I was strong enough to be removed to the sesside, and have ever since been in good bealth.

"L never felt so well in my life as I do now All my friends consider the cure as a miraculous one, and I wish others to know by what means rry life was saved. I am willing that Messre. A. J. White, Limited, shall make whatever use they may think fit of this statement, and I hereby authorise them to do so. " Dated this 3rd April: 1891.

"(Bigned) Mrs. Many Jones," There was nothing "miraculous" about this ady's recovery, although it may have been, and indeed it was remarkable. But it was all along the straight lines of nature. She had suffered all her life from indigestion and dyspensis, and her other ailments gross from that, and that alone. She could not digest her food, and the whole system was perishing from the poisse in the stomach and from lack of nutrition. Mother Siegel's Syrup did its one work, it cleaned away the corrupted matter and set the digestive organs (the liver, stomsch, and bowels) in natural operation, and immediate improvement and final recovery followed as necessary consequences Especially should the reader notice the close

resemblance between the symptoms of dyspopsia and those of consu ption, through which most unhappy mistakes are constantly made. Never conclude you have consumption until you are sure it isn't dyspepsia. The chances are that the result will be the same us in Mrs. Jones' case,

Apropos of theology, Mr. Justin H. Monished with almost theatrical extravagance, his it will be all over with poor me. But (with a Carthy has the following story in Black and large drawing-room especially being a replica of stage 'aside') I'll tell you why it won't do to White related to hi a by an English lady on the one of the boudoirs of the Little Trianon, where- fumigate this jevening. There's a chance of Continent - At Bonn I went to the table unto be added several Grouss-only unluckily Lady Puffins putting in an appearance, and-well d'hôte, as I could not otherwise get anything to "I've been bitten, I own. But that won't do. they were copies, and needed a London for to she can't abear it. So come along, Jack Crux, eat, and I had nothing but some broad all day. I sat next an old gentleman, enormous, and gob-Still it was all very protty-rather more All of which—to be candid—was very jounty bling like a giant. He entered into talk and fragrant, porhaps, of the flora of Habana than setting, though it a little pussled the Squire, told me he lived in Bonn, but came to the table of Versailles, while the furniture and curtains who rarely smoked, and cared not for paper to- d'hôte because the food was not go d enough at seemed to absorb that unconsidered trifle; dust. bacco. However, he had dined well, had laughed home that day; also that he studied theology. ed matter being in the wrong place, his snuggery sant, so with a smile to his wife he allowed him. Whereupon the old glutton looked at me over a exhibited signs of a cultivated taste, as well as of self to be led out of doors, while Tom with the mountain of goose and cherries, and said, with air of a consummate hypocrite pulled out his his mouth full but with the aternass of a St. Thitle: was wont to wend his way in the after- olgar-case with, "When I say a cigarette, on the Simon, " Do you mean that you think of nothing Book in I inspire Thin Fields, Mr. Charles Fits, and twenty polantes after all is not much more plug ands-water and eating dry bread; felt grots busic the robble of my spiritual colembane.

The Kaiser Wilhelm has given orders that he new army wheaten bond (nickname) "Caprivi bread") shall be placed regularly upon

Since Miss Bradd in published "Lady Audley's Scoret" in 1882 also has written 52 novels, representing in the o iginal aditions 156 volumes. or about 50 000 pages of printed matter. This means about 2.000 pages a year or an average of six pages of printed matter daily.

There is a fashion in stationary as in everything else, and the long narrow anvelopes of bygone years have again made their appearance, but the delicate coligraphy that was then fashionable for ludies has entirely disappeared, and has been thoroughly revised and greatly enlarged. the women of today, who nearly all write a bold It is re-arranged on a New plan, much more hand, find this old-fash one: envelope decidedly troublesome and inadequate for addresses of any

Wary Stuart's right-to a statue in Paris is denied by the Liberts. It holds that she was proper y excluded from the Lux-mbourg Gardens fifty years ug . as having by her swond marriage ceased to be a Franc's Queen. She joined, moreover, the enemies or France, by mixing in the plots against Elizabeth, the ally of Henry IV. and her proteud d verses were forged last century by Querlon.

Princess Lulwig, wife of the Heir Presumptive to the Bivirian. Throne, has just given birth to a daughter, her fourteen'h child. About three years ago her twelfth child died, and it was repeated in Court piroles that she had declared she must have her dozen complet. She had another baby at Christmas, 1990, which died two months after its birth, so that there were again playen. The Princess's wish is now again fulfilled. The eldest of her children is Prince Raprocht, aged 22

The distillusions multiply. One of the prottiest sights of Louism streets is provided by the oliver, m rev little girls of the slums denoing to the tu as of a smiling Italian organ-grinder. I detest the noise (an Old Gentleman writes) but there often given the fellow a penny begauss he seemed to obser the dull, Irah life of the courts and alleys. Yesterlay I took an unmanaly long ramble in the streets; and three times did I come up in the same musician playing to the denoing of the same couple of artistically into ant correctly ranged little girls Inquiry showed that they were as much part of his troups as the manicip on his orgin, kept and fed to aliure the p-maies of old simpletons like

The Scientific American save: - While the public is still marvelling over Salvator's wonderful performance in running a mile in 1 min. 35 sec., there are few who have, through comparison and analysis, sought to realize what a terrific burst of apard this is. It is nearly forty miles an hoar-a rate averaged by very few of our fastest railway trains. There are 52.0 ft. in a mile, so that for every one of these ninelyfive seconds—for every bat of a man's pulse this wonderful horse covered 5: 3-10 ft of ground. The shortest sp ca of time noted by the turfman's wetch is a quarter of a second-an interval so brief that the aye can hardly observe the mind our hardly appreciate it. Yet, in every one of those 332 quarters of a second that magnificent oreuture le put 16 3-10 ft

"The planet Mars is expressly excluded," says the testatrix. "as that is too well known already". The Figure is responsible for the statement that this bequest is good coording to Fra o' law. The Pari - correspondent of the Duly News tell - un that the will has been laid before the Academy, who will decide shortly whether they can accept it. It is thought that the legacy would have cartainly been refused by the Acidemy, and made over to the relatives of the testatrix, if this had i been the only provise; but by a second clause. she directs that until anot a system be devised the interest of the money shall be devoted every five years to remardial the astronomer who during that period shall have contributed most to our knowledge of the major and mineplanets. It is may easire the acceptance of the legacy be the Acad my when the matter

comes to be dis used a ter the vacation.

An interesting question has been started by Mr. Henry Cabot oige, the well-known Amerious historiam. He has been discussing what he calls the distribution of ability in the United States Where do "the most remarkable monin our coun'ry, sir," who are understood to be number us, obisity come from? It appears that the distribution is decidedly capciologe and local. The Sonth has given America her statesmen and soldiers-Washington, Raudolph, Lee, and the rest. The New England States. on the other hand, have alwest monopolized all that America has done so far in the way of literature, art a d science. The men of letters like Longfellow, Lowell, Emerson, and H.wthorne, the inventors and engineers, and also, it would appear, the actors have nearly all comfrom the North Atlantic seaboard States, or from wat are called the Middle States. The discovery is curious; but not very surprising. It was to be expected that Virginia in the old slavery days should chiefly grow politicinns; and it is not attonishing that literature and science h ve found their chief derotees among the enterprising, inventive, and welleducated Yankasa. What is parhaps curious is that the great W at has done so little as yet either in the one department or the other.

one by the aid of an elec rio bell, it is time to Mar. A. A. da Cruz is one of the most marrying charches in London | FORMORAMr. J. G.
